TRAVERSAL OF FINALITY OF OFFICE ACTION

Mail Stop AF

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The Final Rejection mailed November 6, 2003, has been carefully considered. An Amendment after Final Rejection is filed concurrently herewith. In response to the Final Rejection, the Applicants respectfully submit that the Final Rejection should not have been made final and therefore traverse the finality of the Final Rejection.

Under MPEP §706.07(a), it is inappropriate to make an Office Action final when

the examiner introduces a new ground of rejection that is neither necessitated by applicant's amendment of the claims nor based on information submitted in an information disclosure statement filed during the period set forth in 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p).

In the present application, the Final Rejection introduces a new ground of rejection, namely, the rejection under 35 U.S.C. §103(a) over *Sorin* in view of *Swanson et al*, a reference

newly cited by the Examiner. However, the new ground of rejection is not necessitated by amendment. The limitation added to the independent claims was inherent in originally filed claims 4-7 and 28-31. Thus, the Final Rejection sets forth a new ground of rejection which should have been made against the originally filed claim set and is accordingly a new ground of rejection not necessitated by amendment. As a consequence, the Final Rejection was improperly made final.

Therefore, the Applicants respectfully request that the finality of the outstanding Final Rejection be withdrawn and that the Amendment after Final Rejection filed concurrently herewith be considered and entered as though it had been filed in response to a non-final Office Action.

Respectfully submitted,

W. Don MORISON et al.
